For the French
market only

Chausson is a
subsidiary of the
Trigano Group:
**Europe's number
one in recreational
vehicles.**

HERTZ, the world's
leading rental
company has
chosen Chausson...
**Solid proof of our
reliability!**

All technical characteristics (texts and photos) valid at the time of printing (August 2023) are provided by Chausson for general guidance. They may be subject to modification, often because of technical progress.

Where there are multilingual versions, the French text is the binding version.
Non-contractual document.

Because Chausson is committed to the environment, this publication has been printed on PEFC paper from sustainably managed forests.

WHY CHOOSE CHAUSSON?

3 GOOD REASONS

1

FOR ITS STRENGTH

INSULATION, RESISTANCE & PROTECTION

A unique design provides better **insulation**, greater **resistance** and improved **protection**

"Grade 3" certification,
the **highest insulation**
level on the market

Water tightness guaranteed
for **SEVEN YEARS**

2

FOR ITS FEATURES

- Fuel heating, which can be used while on the road (SPORT vans and low profiles)
- The TECHNIBOX, the all-in-one technical area (low profiles)
- 100% LED lighting inside and outside the cell
- The fully-equipped garage
- The refrigerator with automatic energy selection (except 660 and vans)
- Shower stalls with a double drain
- Large, high-quality beds

+ INFORMATION, GO TO
www.motorhomes-chausson.co.uk

3

FOR ITS EQUIPMENT

SPORT LINE

- TV-ready
- Panoramic skylight
- Rear opening windows
- Dining area table extension
- Fuel heating
- Wardrobe
- USB socket
- Exterior table support
- Electric step
- "VPS" reinforced insulation
- **Accessories pack:** Exterior awning, solar panel, exterior lighting, wraparound blind, dining area bedding kit, mosquito net
- Etc.

TITANIUM ULTIMATE

- Body door with window
- Skyview
- Built-in insulated step with motion sensor LED
- Door actuator
- Panoramic skylight
- Fuel heating
- Oven
- External shower
- Atmosphere LED lighting on floor
- Wooden shower duck board
- **Accessories pack:** mosquito net, exterior awning, exterior lighting, solar panel, second battery equipment, wraparound blind, twin bed extension
- Etc.

CHAUSSON

FRENCH KNOW-HOW

TOURNON-SUR-RHÔNE - ARDÈCHE

THE MAIN CHAUSSON PRODUCTION SITE IS LOCATED IN THE RHONE VALLEY

- the equivalent of 33 football fields,
- One of the largest automotive production sites in Europe,
- 8600 motorhomes and vans sold in a single season,
- more than 1000 employees,
- motorhomes that are sold in 25 countries.

THE QUALITY LAB

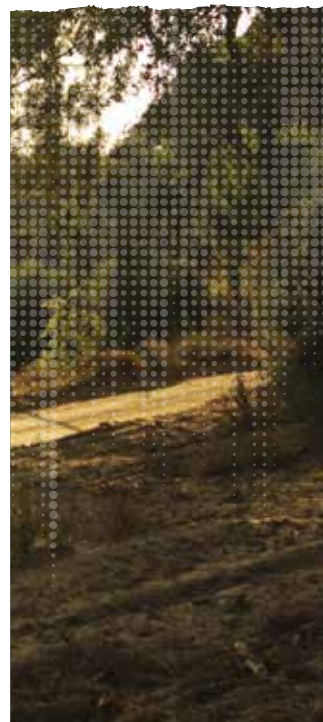

It's equipped with the most advanced instruments for thorough testing of parts for breakage, deformation and wear.

170 DEALERS

Your dealer is and will always be your number one contact for support before and after your purchase.

THE TRIGANO CAMPUS

This is the place where our dealers are trained. In addition, classes were recently organised at the factory for new employees.

COLLECTION 2024

OUR SPIRIT OF INNOVATION

IS WELL KNOWN!

Smart
Lounge

The SmartLounge EFFECT

Each of the two bench seats can quickly be transformed into comfortable seats for road travel (Isofix*).

ISOFIX

**The Isofix system makes it easier to install the car seat and adds a third anchor point to keep your children safe.*

NEW

A made-to-measure WARDROBE

The **Smart Dressing Room** system lets you raise or lower the wardrobe to adjust the size of the garage hold area according to your needs. In the lowered position, your wardrobe becomes a whole other room.

SDR

Easybed

THE SOLUTION for more room

The EasyBed system lets you raise or lower the bed to adjust the size of the garage hold area according to your needs.

Available on models with an island bed.

Easybox

The SMART STORAGE system

This ultra-smart concept proves that storage is no problem, even in a compact motorhome:

- on the outside, you can easily adjust the garage height for storing a scooter or bikes,
 - inside, there are many easy-to-reach storage spaces.
- Featured in the low profile 720.

CHAUSSON

TRIGANO VDL

1, av. de Rochebonne - CS 69003
07302 Tournon-sur-Rhône Cedex FRANCE
contact@chausson.tm.fr

Some models photographed in this catalogue may be shown with equipment supplied as an option. The characteristics of photographed models may vary from one country to the next. Despite the care taken in producing this catalogue, this cannot be viewed as a contractual document. Chausson reserves the right to modify its models without prior notice. Chausson cannot be held liable for any modifications made by its suppliers nor typographical errors when printing these documents. It is forbidden to reproduce any text or documents, even in part. Do not litter the public highway.

Your retailer is at your disposal to advise you and provide you with any additional information. The vehicles have been received in accordance with directive 2007/46 and conform to the regulations in force in Europe. Where there are multilingual versions, the French text is the binding version.

The optional towing equipment can in certain cases change the number of passengers on the car registration papers. Your dealer will be able to give you more information.

Kerb weight: the kerb weight includes the driver's weight (75 kg), 20 L of clean water, 90% fuel and 100% gas. The empty weights ready for use on the list take into account only standard equipment upon shipment from the factory. European regulations tolerate a difference of +/- 5% on empty weight ready for use. The manufacturer reserves the right to change the mass.

You may be able to find certain heavy accessories like large blinds or generators in the marketplace. The weight of these accessories should be deducted from the payload and could possibly lead to a reduction in the actual passenger numbers. It is therefore important not to exceed the maximum loads on axles and the technically acceptable loaded weight when the vehicle is fully loaded.

The clean water tank capacity approved for road use is 20 L, and must comply with the regulations governing the technically acceptable loaded weight. It is up to the user to adapt the loads and the number of passengers to the vehicle's loaded weight. To do this, the clean water reservoir capacity can be adjusted by the user to avoid reducing the number of passengers.
